"When your mission is to provide safety, WaterBlocks is the answer!"

## WaterBlocks™ Design

Control traffic, crowds & hazardous waste.  
Change wall assembly direction as needed.

### Key Features:

- ✓ Easily and efficiently interlock barriers into most/any configuration.
- ✓ Barriers are stackable and are compatible with fence posts. Protection to any height required.
- ✓ Each barrier can be filled with water to a desired weight up to 1,750lbs each.
- ✓ Easily lifted & moved when empty: 2 men, 2 hours installation per truckload.
- ✓ Transportation & storage-friendly in a 53' truck trailer. Providing 416 linear feet of barrier protection.
- ✓ Each barrier is reusable and recyclable after its 20 year expected lifespan.
